

### **Who are we?**

We are a 100% volunteer group of advocates who fundraise to give long-term treatment to local CNY residents who suffer with opioid addiction. We serve the population that has been unsuccessful with other short term or medication assisted treatments. Founded by parents who used this treatment to save their son's life from addiction. See their video on our website: <https://www.r2rcny.org/our-story/>

### **What does our treatment look like for qualified candidates?**

\$23,000 per person for 6 months of treatment  
3 months inpatient and 3 months of sober living  
Abstinence Based, 12 Step Program  
Out of state treatment

### **What do we offer our community?**

We are saving lives, one at a time. Our long-term treatment protocol helps qualified CNY adults who have tried outpatient and short-term inpatient options, and have been unsuccessful, to achieve sobriety. We are building a community of support for everyone affected by opioid addiction. We are helping our community recover and overcome.

### **Prevention, Harm reduction, Stigma, Obstacles, Support and Recovery**

We are also working to raise awareness on opioids in our community. Opioids are a community problem and it will take a community to address it.

We offer our **Family Resource Nights**. We welcome family and friends of those affected by addiction and those in early recovery. Focusing on how they can take care of themselves and their loved one. Giving them tools to start caring for themselves.

We offer our **Resources and Connections** night where we invite elected officials, first responders, community leaders, other organizations and most importantly anyone who wants to learn more about opioid addiction and how we can address the problem as a community. We can help individuals find the treatment and or support they need to get sober or to get through early recovery which is both challenging and the most rewarding thing people can do.

We offer **Narcan training** for groups or individuals. Either by attending one of our evening programs or you're welcome to request our training at your place of work.

### **How can you help?**

Donations, sponsors, fundraisers, volunteers
